

## SEND Information Report Chiltern Primary School 2024-2025

1	Provision	We currently provide for children with additional needs across the following broad areas: Physical & Sensory, Communication & Interaction, Cognition & Learning and Social, Emotional & Mental Health.  We have a number of children who are being assessed for additional needs, yet are awaiting a formal diagnosis.
2	Identification	Some children arrive at our school with their needs clearly identified from their previous setting.
		Every pupil's progress is closely monitored through regular meetings and consultations with parents/carers. This enables us to identify additional needs and we use specialist assessments, including using specialist agencies and support services including Speech and Language Therapy, Educational Psychology, Autism Outreach and the School Nursing Team.
		Concerns raised by parents are discussed, recorded and acted upon; the pupil is then monitored by the SENCo, following the graduated response approach.  The school's SENCo is Claire Lundie
3	Pupil Numbers	There are currently 99 pupils at SEND Support There are currently 19 pupils with an Education, Health & Care Plan (EHCP). There are 7 EHCP applications pending with the LA There are 4 pupils in receipt of Early Years SEND funding.
4	Parents & Carers	We welcome parents/carers into school and fully encourage involvement.  All pupils with SEND have 3 reviews per year with the class teacher where progress made against targets set is discussed with parents/carers and new targets are agreed. We aim to include parents'/carers' views and preferences when setting these targets and where necessary we will create a personalised plan.  Children with an EHCP have an annual review.
5	Pupil Involvement	Wherever possible, pupils are involved in the target setting process. Pupils are encouraged to know their targets and should know who is going to do what in order to support them to meet their targets. Pupils' views are sought and they agree to the targets as set.
6	Assessing & Reviewing	The school follows the graduated response as detailed in our SEND Policy - 2023 where we assess, plan, deliver and then review the programme for each pupil, increasing (where possible) or decreasing the level of support as determined by their progress.
		Pupil progress meetings are held 3 times per year with the Curriculum lead, Maths, Literacy Coordinators and SENCo. During these, the progress and support in place is discussed and reviewed against progress made.
		The Governing Body is given detailed reports of progress and support.
7	Exit Criteria	SEND can be transient; some pupils may need support for their entire time at school, others may make good progress so that their attainment is in line with their peers and they no longer require support. We liaise with parents to decide whether support is to be continued and if support is no longer required the child is removed from the SEND School Support register in liaison with the class teacher, SENCO and parents.

14	Chiltern Primary School Emotional Development	School assemblies also cover a broad range of aspects and themed activities  Week, there are themes and campaigns to raise awareness, enhance knowledge and turther pupil understanding. The school collects donations for charities e.g. Children In Need.  We have staff trained to deliver Emotional Literacy and staff dedicated to pupil wellbeing.  Where a pupil requires a higher level of support than this, specialist agencies such as MIND and CAMHS are requested.
15	Agencies	Each pupil's needs are managed on an individual basis, with school involving agencies as and when appropriate. School has excellent links with a wide range of professionals offering a wide range of support to families. We involve other agencies in agreement with parents and as part of our graduated response.
16	Concerns and complaints	If parents are concerned or wish to make a complaint about the progress or provision for their child, they can contact the class teacher, SENDCo or Headteacher in person or via the school contact email address. Should it be required, the school complaints policy can be accessed through the Complaints page under the Parents tab on the school website.
